PUMPHOUSE

HABS NO. CO-129-G

Location: Southwest 1/4 of the Southwest 1/4 of Section 22, Township 5 North, Range 46 West, Sixth Prime Meridian. Yuma County, Colorado. North of the intersection of County Road 56 and County Road S, vicinity of Clarkville, Colorado.

Present Owner: Farmers Home Administration, U.S. Department of Agriculture

Present Occupant: Vacant

Present Use: None

Pumphouse

Exterior

The pumphouse is a one-story building of 2x4 wood frame construction with a gable roof. The foundation is cast-in-place concrete. There is one entry door (west side) and a window opening (east side). The roof is of planks covered with wood shingles. The siding is the same tongue and groove siding milled to resemble shiplap siding used elsewhere on the farm. The building dates to the 1910s. Nearby, to the west, is a concrete upright tubular cistern. Approximately 15' north and west is an underground cistern with a concrete access hatchway to the subterranean portion. The windmill is directly northwest to the underground feature. The cistern system appears much newer than the pumphouse and may date to the 1960s or early 1970s as part of a water treatment system.

Interior

The interior of the building has a concrete slab floor; otherwise the interior is unfinished. There are remnants of an electric pump inside the building.

Existing Condition

The building is in good condition at the present time.
